ACCOUNT STATUS

Where allowed by law, AT&T may implement late payment interest of no more than 18% annually. Rates will vary based on state regulations. Interest will be calculated based upon daily balances and will be applicable for each day that a delinquent balance is outstanding. This charge will apply to all balances that are delinquent through such time that payment in full is received at AT&T. The late payment interest will be billed on a monthly basis. Accounts billed outside the US will not be charged LPI.

Where allowed by law, AT&T may implement a \$25 service fee for restoration of service where delinquency has caused an interruption. This fee will be applicable to each account that is being restored and will be included on your monthly billing statement.

REGULATORY NEWS FEE DESCRIPTIONS

The Administrative Expense Fee recovers a portion of AT&T's internal costs associated with the Federal Communications Commission's Universal Service Fund and related programs. The Federal Regulatory Fee recovers amounts paid to the federal government for regulatory costs and telecommunications services for the hearing impaired, and costs associated with local number portability administration. These fees are not taxes or charges that the government requires AT&T to collect from its customers.

Attention Customers with service in Oklahoma: 911 REQUIREMENT Effective January 1, 2017, a business owner or operator, who owns or controls a multi-line telephone system or equivalent, which uses Voice over Internet Protocol (VoIP) enabled service and provides outbound dialing capability or access is required to configure the telephone or equivalent system to allow a person initiating a 9-1-1 call on the system to directly access 9-1-1 without an additional code, digit, prefix, postfix or trunk-access code. Also, effective January 1, 2017, a business owner or operator that provides residential or business facilities utilizing a telephone system or equivalent system as described above, shall configure the telephone or equivalent system to provide a notification to a central location on the site of the residential or business facility when a person within the residential or business facility dials 9-1-1, provided the business owner or operators system is able to be configured to provide such notification with an improvement to the systems hardware. The business owner or operator is NOT required to have a person available at the central location to receive the notification.

Attention Customers with Locations in New York: New York Telecommunications Relay Service (TRS) Telecommunications Relay Service Access allows individuals who are deaf, hard-of-hearing or have a speech disability to type on a Text Telephone (TTY/TDD), a device resembling a typewriter linked to a phone. You can reach the TRS by dialing 7-1-1 in any state. A Communications Assistant (CA) reads the message to the hearing person at the other end of the line. The CA then types the hearing person's spoken words back to the TDD/TTY user. Each call TRS handles is held strictly confidential. No record of a conversation is kept. There is no charge to use TRS, however regular phone charges do apply. You may request that your long distance company be used when placing long distance calls through TRS. The Targeted Accessibility Fund of New York provides assistance to low income deaf, hard-of-hearing and speech disabled individuals so they may acquire text telephones and other equipment to provide critical telephone service. Caller ID on Relay Calls Customers who subscribe to Caller ID service will see the telephone number and if available, the name of the calling party for all calls made through Telecommunications Relay Service. Therefore, if you call someone who subscribes to Caller ID using New York Telecommunications Relay Service, your number and if available, your name will be displayed on their Caller ID screen. Please Note: Caller ID for all Relay Calls maintains the callers selected blocking features. If you use Call ID Blocking, your telephone number will not be sent to the person you are calling through NY Relay Service. If you use Call ID Blocking and the person you are calling through New York Relay Service utilizes Anonymous Call Rejection your call will not be accepted by that person. You may activate free per-call blocking for a TRS call by dialing *67. Per-call blocking will flag the individual call as private and prevent delivery of your telephone number to the Caller ID subscriber for that call. To learn more about Telecommunications Relay Service call the Relay Inquiry Line
